The NR Hunter Derby

In the two-round format, the open numerical system to score competitors in the Classic Hunter Round (first round) on performance, hunter pace, jumping style, quality and substance, and movement. In addition, the base score in the Handy Hunter Round (second round) reflects brilliance of pace and handiness.

In each round, after the judges' base score is given, one point will be added for each high-option fence jumped up to a maximum of four. The point must be added even if there is a refusal, rail down or or loss of good jumping style at that fence, providing that the horse-and-rider combination does jump the higher height fence option.

Obstacles are reminiscent of the hunt field and must offer a variety of appearances, such as natural post and rail, stone wall, white board fence or gate, coop, aiken, hedge, oxer, brush, logs and natural foliage. The Handy Hunter Round should simulate riding over hunt country and incorporate options such as tight turns, clever options for jump approaches, hand galloping, halt, and trotting a fence.

Fence heights will be set at 2'6", with four high option fences set at 3'.
